The information describing a manufacturer's name, model designation, and manufacturer's serial number available electronically on the International Registry ("**aircraft object information**") has been provided to Aviareto Limited (the "Registrar") by aircraft, aircraft engine, and helicopter manufacturers (collectively the "**Manufacturers**" or each "**Manufacturer**") and facilitated by the Aviation Working Group ("**AWG**"). The Manufacturers may from time to time also provide the Registrar with documentation describing such information and the methods used in their preparation ("**descriptive documents**") which the Registrar may from time to time make available on the International Registry.

The Registrar, any Manufacturer, the AWG or its members shall not have any legal obligation or liability whatsoever relating to the provision, content, use or non-use of (a) aircraft object information or (b) the descriptive documents. Without limiting the foregoing, by making aircraft object information or descriptive documents available on the International Registry, the Registrar, any Manufacturer, the AWG or its members are not making any representation or warranty, express or implied about:

- (i) the accuracy or comprehensiveness of the aircraft object information or descriptive documents; or
- (ii) the aircraft object to which aircraft object information or descriptive document may relate (including, without restriction, whether the object exists, is in service and/or complies with any regulatory standard or requirement).

Furthermore, any Manufacturer may, in its sole discretion, discontinue providing aircraft object information or recall and/or (without obligation) amend its descriptive document at any time and from time to time.

Users of the International Registry should not rely on the accuracy or comprehensiveness of the aircraft object information or the descriptive documents.
